

SEVILLE AT ADDISON VILLAGE

Gated Enclave

Seville is an intimate neighborhood consisting of only 49 lots (typical lot size: 80 ft. wide by 140 ft. deep). Homes in Seville will feature tile roofs, paver driveways and lake or conservation views.

Seville is a part of Addison Village, the first of four planned villages to be developed as Viera continues to grow. The concept for the village design is to offer walkable, connected neighborhoods that are convenient to community parks and will share a future village center providing retail shops, restaurants and other services. Addison Village will also feature a private central clubhouse facility with pool and tennis facilities.

Facts and Features:

- Convenient to Viera K-8 Charter School, Viera High School and walking distance to Quest Elementary School
